

Depth Sounder

from Faria Marine Instruments

With an oversized back-lit display depth can be easily read in any weather condition. Audible and Visual alarms let the boater know when a shallow or deep water condition exist. A programmable keel offset lets you adjust the offset from the keel at the display.

Features:

- Depth Range: 61 meters (199 feet)
- Deep and Shallow water alarms.
- Programmable Keel off-set.
- Automatic Gain control.
- Back lighting for maximum night vision.
- Metric or US standard units.
- Easy to install!
